

Dear valued customers,

## WINDOWS ASP HOSTING HAS LANDED

Burton Hosting is proud to announce the launch of its WINDOWS hosting range. All the best hosting features from our Linux range, coupled with ASP.NET support, utilising PLESK 7 RELOADED technology. Package details available at:  
<http://www.burtonhosting.com/packages.php?group=windows>

If you would like to migrate to the WINDOWS platform, please contact support.

## BARGAIN BASEMENT

Don't forget our bargain basement online at <http://www.burtonhosting.com/bargainbasement.php> - plenty of hot deals to snap up!

## EMAIL DEFENSE

Are you tired of SPAM? We have introduced a new solution powered by MX LOGIC technology. Virtually eliminate spam from your inbox and manage your quarantine online. Find out more:  
[http://www.burtonhosting.com/email\\_defense.php](http://www.burtonhosting.com/email_defense.php)

## MANAGED DNS

Would you like more control over your DNS? The ability to add personalised records easily? Find out more: [http://www.burtonhosting.com/managed\\_dns.php](http://www.burtonhosting.com/managed_dns.php)

## WEBSITE / SERVER MONITORING

Don't forget our FREE service online at <http://www.getmesupport.com>. We will be introducing new and improved features as well as multi layer monitoring soon!

A full newsletter will be released in the not too distant future along with other added features introduced at Burton Hosting.

Thank you for your continued business and support!

Best Regards,

The Burton Hosting Team!
